www.worldhospitalcongress.org
We are delighted to head to the beautiful country of Oman to discuss with you the topic “People at the heart of health services in peace and crisis”. Hospitals are not isolated islands – we are very much integral parts of our communities and are supported by their strength and deeply affected by their troubles. In a world that is ever changing, building resilient institutions to better serve our communities – both in peace and in crisis a fundamental issue for all hospital managers.

In hard times – as well as in good ones – however, it is always important to remind ourselves of what our ultimate mission is. As managers, quite often, we see ourselves focused on innovations and technologies, payment and management models, legal and financial issues – and it is easy to forget that all these subjects are tools, not ends in themselves. Fundamentally, hospitals care for people. Just as importantly, people are the most important element in providing quality, safety and value to patients within hospitals.

People are at the heart of health services and also at the heart of the World Hospital Congress. It is your participation, the ideas that you share and the conversations that we will have as a global community of hospitals and health services that will make this Congress wonderful. We hope you will join us and share your knowledge with your colleagues in this congress. So, on behalf of the IHF, let me greet you and give you a warm welcome to Muscat and to the 2019 World Hospital Congress!

Dr Francisco R. Balestrin
President
International Hospital Federation

We look forward to meeting you all in Oman from the 6th until the 9th of November 2019.

“Ahlan wa Sahlan”

H.E. Dr Ali bin Talib al Hinai
Under-Secretary of the Ministry of Health for Planning Affairs
Oman

ABOUT THE INTERNATIONAL HOSPITAL FEDERATION

The International Hospital Federation (IHF) is an international not for profit, non-governmental membership organization.

Its members are worldwide hospitals and healthcare organizations having a distinct relationship with the provision of healthcare. It provides them with a platform for the exchange of knowledge and strategic experience as well as opportunities for international collaborations with different actors in the health sector.

Established in 1929 after the first International Hospital Congress in Atlantic City, USA as the International Hospital Association, it was re-named after the Second World War in 1947. With its Headquarters in Geneva the IHF is constituted under the Civil Code of Switzerland. The IHF recognizes the essential role of hospitals and health care organizations in providing health care, supporting health services and offering education. Its role is to help international hospitals work towards improving the level of the services they deliver to the population with the primary goal of improving the health of society.

ABOUT THE MINISTRY OF HEALTH

From a moderate capacity and poor population’s health status in 1970, the MOH has evolved to become a prominent contributor to the prosperity of the Omani people and establishing Oman as a health care system resource country for the other Gulf Cooperative Countries (GCC), to countries of the Eastern Mediterranean Region (EMR) and to the world at large.

Today, the MOH is proud of its modern and organized health care system that covers the promotive, preventive, curative and rehabilitative programs and services with an exemplary referral network of primary, secondary and tertiary health care institutions, including 70 modern hospitals with about 6500 beds, and over 1300 health centers and clinics.
OPENING CEREMONY:
The organizing committee invites all registered delegates to attend the Opening Ceremony which is held on Wednesday, 6th November 2019 at 06:30 PM – 07:30 PM in Grand Ballroom A, Oman Convention & Exhibition Centre, Oman.

REGISTRATION:
The registration desk is located outside Grand Ballroom Section A & B, registration times:
• 6 November: 15:00 - 20:30
• 7 November: 07:30 - 18:00
• 8 November: 07:30 - 18:00
• 9 November: 07:30 - 14:00

EXHIBITION:
The Exhibition will be held in Grand Ballroom Section B

LUNCH AND COFFEE BREAKS:
Lunch and coffee breaks will be available at the Grand Ballroom Section B. Please refer to the program for the timing.

PRAYER ROOMS:
There will be designated male and female prayer rooms. Kindly approach the registration desk to inquire about the location.

SPEAKER PREVIEW ROOM & REGISTRATION:
The Speaker Preview Room is located next to Meeting Room 8. Speakers are also requested to hand over their presentation(s) at least two hours before their session for final checks. The room is available for speakers' convenience throughout the conference for final run-throughs of their presentation(s).

CONFERENCE CPD CREDITS:
An e-certificate of attendance will be available for the 43rd World Hospital Congress attendees. You will receive your certificate within 3 days after the congress via email. The congress is accredited by OMSB with 14 CPD points (category I).

RULES:
Smoking Policy – Oman Convention & Exhibition Centre, Muscat is a non-smoking venue. Participants are requested to exit the building, to designated smoking corners.

Mobile Phones - Delegates are kindly requested to keep their mobile phones on silent mode in meeting rooms when scientific sessions are in progress.
Resilient Health Services
Health services must be responding to people's health needs, and especially when they are facing a crisis. This will happen if pro-active interventions and organizations are developed in times of peace. This also requires a true culture of adaptation and responsiveness as well as a capacity to learn from experience and put in practice lessons from the past. This sub-theme will allow delegates to explore in-depth the various dimensions of resilience to make sure that people are always at the heart of health services. The congress will provide valuable tools and approaches for practitioners and policymakers to enhance the resilience of health services.

Health Investment For Prosperity
No one can deny that health is supportive to prosperity. However, health expenditures are growing, and the sustainability of this growth is questioned while at the same time all countries do not have enough resources to respond to all health needs of the population. Considering the amount spent on health, it is necessary more than ever to explore all avenues for more efficient health spending. This requires appropriate governance practices supported by most advanced leadership and management systems inclusive of all health practitioners. Well spent resources on health can be an engine of social development and economic growth but health service providers and especially hospitals will have to revise their delivery models to serve people according to their needs.

The Congress will help delegates better understand how it is possible to gain more prosperity while responding to growing health needs under financial constraints.

Innovation For Health Impact
Turning prospective benefits into health gain will happen only if appropriate mechanisms are in place to implement and scale up as quickly as possible benefits of meaningful innovations. It is also a game-changer when innovation is driven by people's needs as they are recognized in health services with industry providing solutions upon request of health providers. The 4th industrial revolution is on its way and health services are powering this change by accelerating the utilization of digital services on all fronts. Exploring all these dimensions will also give prospective perspectives a real chance to quickly become part of daily health services.

Dr. Anna Riera
Membership Director
Unió Catalana d’Hospitals (Catalan Hospital, Health & Social Services Association)
Spain
During the World Hospital Congress in 2018, IHF and then congress host Australian Healthcare and Hospitals Association (AHHA) supported the #hellomynameis campaign. This year, we are excited to promote the campaign once again! The funds collected from the hospital visits to The Royal Hospital and Sultan Qaboos University Hospital will be donated to St. Gemma's Hospice in Leeds, a charity which #hellomynameis supports.

WHAT IS #HELLOMYNAMEIS?
Chris Pointon and his late wife Dr. Kate Granger MBE founded the #hellomynameis campaign in 2013 to encourage and remind healthcare staff of the importance of introductions. They both believe in the power of introductions in making human connections and that it is an essential part of providing person-centered, compassionate care. As Kate said, a simple introduction is the first step on the ladder of a therapeutic relationship.

They started with one tweet in 2013 and now #hellomynameis has made over 2 billion Twitter impressions and garnered support from thousands of individuals, groups, and organizations worldwide.

Kate and Chris promote 4 key values that the campaign lives by:

COMMUNICATION
Is of paramount importance. Timely and effective communication which is bespoke to the patient makes a huge difference and starts with a simple introduction.

THE LITTLE THINGS
Really do matter – they aren't little at all, they are indeed huge and of central importance in any practice of healthcare and in society. This could be someone sitting down next to you rather than looming over you or holding the door open for someone coming through.

PATIENT AT THE HEART OF ALL DECISIONS
"No decision about me without me". These words ring true in healthcare as the most important person is the patient and everything should be done with them in mind.

SEE ME
See me as a person first and foremost before disease or bed number. Individuals are more than just an illness, they are a human being, they are a family member, they are a friend, etc and we should all remember to see more of an individual than just the reason they are using healthcare.

After Kate's death in 2016, Chris is continuing her legacy by keeping the campaign alive.

We Encourage You To Also Support #Hellomynameis
There are many ways you, your colleagues and organization can do so:

• Follow the four key values. You can start by making sure you introduce yourself to your patients and people you interact with.
• Spread the word about the campaign online – tweet, share, post a photo or video. You will find your badges having that bright #hellomynameis logo. Post that or a photo of yourself with your badge during the Congress and share it in social media. Make sure to use the hashtag #hellomynameis.
• Share the information with your colleagues, organization, friends, to everyone you know.
• You can also donate to the charities that #hellomynameis supports: St. Gemma's Hospice and Leeds Cancer Centre.

Read more about Kate and Chris story and #hellomynameis at www.hellomynameis.org.uk
H.E. Dr. Ahmed Mohammed Obaid Al Saidi
Minister of Health, Oman

Education & Qualifications:

Research, Publications & Presentations: Clinical Findings and Natural History of 58 Patients with Anti-U1 RNP Antibodies, published as an abstract in Rheumatology (Eular “99”), RNHRD, The Role of Cyclosporine in the Treatment of SLE, The Genetics of SLE, Radiological Changes in Ankylosing Spondylitis, lectures given at regional and national level includes topics in Rheumatoid Arthritis, Osteoporosis, SLE, Scleroderma and other Rheumatic conditions.

Other interests: Spending time with family, enjoy a round of chess or golf on the computer and traveling.

H.E. Dr. Ferozuddin Feroz
Minister of Public Health, Afghanistan

In 2002, Dr. Feroz joined the Afghan Ministry of Public Health as the Deputy Minister, Policy and Planning. He was instrumental in laying sound foundations for Afghanistan’s current health system. He strongly supported the development of two key initiatives, the Basic Package of Health Services and the Essential Package of Hospital Services.

Between 2005 and 2014, Dr. Feroz did consultancy work in many areas of the country for the World Bank, the United States Agency for International Development, USAID, and for the UK Department for International Development, DFID.

During the same period he did Diploma and an MSc in Public Health Management from the London School of Hygiene and Tropical Medicine, London University and MBA from the International Institute of Health Management Research, Jaipur, India.

In early February 2015 he was appointed as the Minister of Public Health.

Dr. Ahmed Al Mandhari
WHO Regional Director for the Eastern Mediterranean

Dr Ahmed Al-Mandhari was appointed as WHO Regional Director for the Eastern Mediterranean by WHO’s Executive Board at its 143rd session and assumed office on 1 June 2018.

A native of Oman, Dr Al-Mandhari has made a substantial, positive contribution to the development and modernization of Oman’s health system, which has witnessed qualitative improvements in recent years, particularly in areas such as patient safety.

A specialist in family and community medicine, Dr Al Mandhari was Head of Quality Management and Development at Sultan Qaboos University Hospital from 2005 to 2006, followed by Deputy Director-General for Clinical Affairs until 2010. In 2013, he was appointed Director-General of Sultan Qaboos University Hospital, later becoming Director-General of the Quality Assurance Centre at the Ministry of Health. Dr Al-Mandhari has also worked as a senior consultant in family medicine and public health in Oman since 2009.
WHO OPENING KEYNOTE AND PANEL DISCUSSION

Dr. Edward Kelley
Director of the Department of Integrated Health Services, World Health Organization, Switzerland

Edward Kelley is the Director of the Department of Integrated Health Services at the World Health Organization. In this role, he leads WHO’s efforts on integrated health service models and packages and on WHO’s efforts to strengthen the safety, quality, and infection prevention and control in health care globally. Prior to joining WHO, he served as Director of the U.S. National Healthcare Reports for the U.S. Department of Health and Human Services in the Agency for Healthcare Research and Quality. Kelley also directed the -28country Health Care Quality Improvement (HCQI) Project of the Organization of Economic Cooperation and Development. Formerly, Kelley served as a Senior Researcher and Quality Assurance Advisor for the USAID-sponsored Quality Assurance Project (QAP) and Partnerships for Health Reform Project Plus (PHRPlus). In these capacities, he worked for ten years in West and North Africa and Latin America, directing research on the Integrated Management of Childhood Illness in Niger. Prior to this, Kelley directed the international division of a large US-based hospital consulting firm, the Advisory Board Company. His research focuses on patient safety, quality and organization of health services, metrics and measurement in health services and health systems improvement approaches and policies. Recently, Kelley was also asked to lead the Infection Prevention and Safety and the Health System Recovery teams for WHO’s Ebola Response effort.

KEYNOTE SPEAKERS

Hon. Yuthar Mohammed Al Rawahy
Founder & Honorary Life President, Oman Cancer Association, Oman

Hon. Yuthar Mohammed AlRawahy was a member of the State Council and the founder and chairperson of The Oman Cancer Association (OCA), the first registered, non-governmental, non-profit organization at the Omani Ministry of Social Development. She graduated from the American University of Cairo and worked at the college of Medicine in Sultan Qaboos University in the Dean’s Office as the Medical Education Officer from 1996 - 2000.

Ms. Yuthar is a cancer survivor dedicated to advocating for cancer patients and their empowerment. Her organization works to create cancer awareness and acceptance and promotes early intervention though self-examination.

The Dar Al Hanan (Home Away From Home) project is her latest outreach initiative through which NACA provides accommodations for families accompanying ill children who receive treatment at the Royal Hospital in Muscat. Dar Al Hanan caters primarily to families from outside the Muscat Governorate area.

In addition, Ms. Yuthar is involved in numerous community programs such as the Annual Walkathon for Cancer, a monthly cancer survival help group, as well as fundraising for OCA education and research programs.

In 2009, Ms. Yuthar managed to raise enough funds to build a One-Stop Mobile Mammography Unit fitted with digital mammogram that tours the interior of Oman providing breast screening and empowering and educating women on health issues.

She has five children and eight grandchildren.

Sir Andrew Dillon CBE
Chief Executive, National Institute for Health and Care Excellence, UK

Andrew Dillon graduated from the University of Manchester in 1975. He has held a number of senior management positions in the UK National Health Service, including General Manager of the Royal Free Hospital and Chief Executive of St George’s Healthcare NHS Trust in London. He joined NICE as its founding Chief Executive in 1999.
KEYNOTE SPEAKERS

Dr. Melinda Estes
President and Chief Executive Officer, Saint Luke's Health System; Chair-Elect, American Hospital Association, USA

Melinda L. Estes, M.D., came to Saint Luke’s Health System in 2011 as President and Chief Executive Officer. She oversees a $2.5 billion not-for-profit, faith-based, integrated health system, which includes 16 hospitals and campuses; heart, neuroscience, and cancer programs; home care and hospice; behavioral health care; and more than 100 physician practices and retail clinics, and senior living communities.

A board-certified neurologist and neuropathologist, Dr. Estes held a variety of executive roles at the Cleveland Clinic, Cleveland Clinic Florida, and immediately prior to coming to Kansas City, served as president and CEO of Fletcher Allen Healthcare in Vermont.

Dr. Estes currently serves as chair-elect of the American Hospital Association, a membership organization that represents 5,000 hospitals and healthcare systems in the United States.

Dr. Akihiro Seita
Director of Health Programme, UNRWA (UN Relief and Works Agency for Palestine refugees in the Near East)

Dr Akihiro Seita is the Director of Health and WHO Special Representative at UNRWA (UN Relief and Works Agency for Palestine refugees in the Near East) HQ in Amman, Jordan since 2011. UNRWA provides primary health care to 5.5 million Palestine Refugees in the Near East with 144 health centers with 3500 staff. Dr Seita is the leader in health reform. He manages the UNRWA health reform through family medicine approach (family health team) and e-health (electronic medical records) covering 3.6 million patient records. He facilitated the hospitalization support program reform, by introducing rigorous rationalization of hospitalization criteria and payment system. This is to ensure the best use of limited resources for the most needed people.

He is the innovator in health. With e-health, he introduced a cohort analysis for diabetes and a smartphone application on maternal and child health booklet.

He is a strong advocate for Palestine refugees’ health, and published articles on Lancet, including “No health without peace” (November, 2016), “Amid US funding cuts, UNRWA appeals for health and dignity of Palestinian refugees” (19 January 2018) and “Health and dignity of Palestine refugees at stake” (22 Dec 2018). Prior to UNRWA, he was the coordinator for tuberculosis, AIDS and malaria at WHO/EMRO. He received the Princess Chichibu Memorial TB Award for Global Contribution in 2014, and Takemi Life Science Award in 2017.

KEYNOTE SPEAKERS

Dr. Agnès Soucat
Director, Health Systems Governance and Financing, World Health Organization

Before joining WHO, she was Global Leader Service Delivery and Lead Economist at the World Bank. She previously was the Director for Human Development for the African Development Bank, where she was responsible for health, education, social protection and jobs for Africa, including 54 countries in sub-Saharan Africa and the Maghreb. She has over 25 years of experience in health and poverty reduction, covering more than 70 countries in Africa, Asia and Europe.

She was a pioneer of several innovations in health care financing including community based financing and performance based financing and authored seminal publications on these topics. She is also the co-author of the World Development Report 2004 “Making Services Work for Poor People” and of the Lancet Commission report “Global Health 2035: a world converging within a generation”. She was commissioner of the recent Lancet and Rockefeller Commission on Planetary Health. Dr Soucat did also extensive work on the health labor market dynamics in Africa. Dr Soucat holds an MD and a Masters in Nutrition from the University of Nancy in France as well as a Master of Public Health and Ph.D in Health Economics from the Johns Hopkins University.

**Dr. Joacim Stalfors**
Chief Quality Officer, Sheikh Khalifa Medical City, Ajman, UAE

**Benedict A Stanberry**
Principal, Institute of Healthcare Leadership and Management, UK
“Hundreds of millions of dollars are invested in building new hospitals around the world each year. Too often, these investments are focused on the construction of the physical facility without sufficiently incorporating an “integrated approach” that considers the processes, the people and the place which, only together, can result in a successful hospital development.

This book will help guide key stakeholders who are developing hospitals with important insights on planning, financing, designing, building and commissioning greenfield hospitals in developing and emerging markets, and shares lessons from more than 30 industry leaders whose healthcare experiences encompass more than 100 countries.”

</table>
The following posters will be presented at the exhibition of the World Hospital Congress, under the following sub-themes:

- Resilient health services
- Health investment for prosperity
- Innovation for health impact

Around 60 posters will be displayed throughout the whole duration of the event. We encourage both poster presenters and attendees to be present in the poster areas during coffee breaks and lunch breaks. A special jury will be reviewing the posters and the Best Poster will be awarded during the Closing Ceremony.

### RESILIENT HEALTH SERVICES

**A1: Healthcare in conflict settings: Leaving no one behind**

**Presenter:** Ms. Maha El Akoum  
Head of Content and Research Fellow  
World Innovation Summit for Health  
Qatar

**A2: How to manage crisis in hospitals? Building resilient organizational strategy**

**Presenter:** Ms. Marie Georges Fayn  
Reseau Chu And Reseau Hopital & GHT  
Founder  
Groupe Profession Sante – Nehs  
France

**A5: Ethical issues in hospitals in preparedness and response to infectious outbreaks**

**Presenter:** Dr. Mahesh Devnani  
Assistant Professor of Hospital Administration  
Post Graduate Institute of Medical Education and Research, Chandigarh  
India

**Presenter:** Dr. Gheed Al Salem  
Deputy Training and Development  
Quality and Accreditation Directorate, Ministry of Health  
Kuwait

**A8: Harmonized triage processes in collaborative environments with modern IT (XMDD)**

**Presenter:** Prof. Tiziana Margaria  
Full Professor  
University of Limerick, HRI and Lero  
Ireland

**A9: Crisis resource management in maternity ward**

**Presenter:** Dr. Shamsa Alhinai  
Sr Consultant  
Royal Hospital  
Oman

**A10: Prevalence of workplace bullying at Royal Hospital, Sultanate of Oman**

**Presenter:** Dr. Nawal Nasser Al Mahiyari  
Psychiatry Specialist  
Royal Hospital- Ministry of Health  
Oman

**A11: Applying failure mode effects analysis in introducing the time-based appointment system in the ambulatory patient services in Royal Hospital**

**Presenter:** Dr. Naima Al-Bulushi  
Senior Consultant  
HOD nuclear medicine department, Royal Hospital  
Oman

### HEALTH INVESTMENT FOR PROSPERITY

**B2: Review the performance of Public-Private Partnership (PPP) as an alternative model to finance healthcare services**

**Presenter:** Dr. Halima Al-Hinai  
Director of Health Investment Department  
Ministry of Health  
Oman

**B3: The study on the competitive advantages of the development of Taiwan’s medical tourism**

**Presenter:** Ms. Yi Ping Chen, HN  
Tri-Service General Hospital Penghu Branch  
Taiwan

### B5: Ideal hospital framework for South Africa

**Presenter:** Dr. Ozayr Mahomed  
Consultant Public Health Medicine Specialist  
University of KwaZulu Natal  
South Africa

**B6: Scoping review on the role of district hospitals: Key findings**

**Presenter:** Ms. Victoria Belorgeot  
Public Health Consultant  
World Health Organization  
Egypt

**B7: How governance can help managers to focus their leadership toward the strategic plan**

**Presenter:** Dr. Joan Maria Ferrer  
Director of Quality, Education & Research  
Fundacio Sanitaria Mollet  
Spain

**B8: Hospital and change management: An intervention to improve management and hospital governance**

**Presenter:** Dr. Sanaa Belabbes  
Assistant Professor  
Ecole Internationale de Santé Publique / Université Mohammed VI des Sciences de la Santé  
Morocco

**B9: Competency based need assessment of hospital CEOs: Iran’s case study**

**Presenter:** Dr. Mehdi Jafari  
Head of Health managers development institute  
Ministry of Health and Medical Education  
Iran

Presenter: Ms. Hsiu Fen Hsu
RN, Assistant Head Nurse, Department of Nursing
Taipei Medical University Hospital
Taiwan
2019 INTERNATIONAL HOSPITAL FEDERATION (IHF) AWARDS

The 2019 International Hospital Federation (IHF) Awards will be presented at a prestigious ceremony during the World Hospital Congress. The IHF Awards honors hospitals and health service provider organizations for innovation, excellence, outstanding achievements and best practices in areas that are worthy of international recognition.

These include:
- Governance, leadership, management policies and practices;
- Quality service delivery in multiple areas at affordable costs;
- Culture of service to motivate healthcare professionals to excel;
- Innovations in healthcare delivery or process management;
- Quality and safety, ethical approaches and evidence-based practices in patient-centered care;
- Sustainable environment, energy conservation and green initiatives;
- Addressing inequalities in healthcare service delivery to the community;
- Advancing healthcare for emerging and developing nations

There are altogether four Awards. Each category presents a unique opportunity to showcase outstanding projects, programs and innovations. Following an extensive review by the panel of judges composed of health leaders from around the world, 27 top entries from the four categories have been selected as finalists from which the Gold, Silver, Bronze and Merit Awards will be chosen.

- Manila Doctors Hospital (Philippines): #SaveAChildSaveTheNation: A Mental Wellness Project for Children with Trauma
- Sohar Hospital (Oman): Multi-phasic project of Implementation of Antimicrobial stewardship program in Sohar Hospital
EXPERIENCE OMAN:
The Sultanate of Oman is considered a hidden jewel at the tip of the Arabian Peninsula. Oman is a wonderful combination of ageless heritage and modern life. A place where one can explore a traditional souq in the morning and attend a world-class show at the renowned Royal Opera House Muscat in the evening. A large part of the Sultanate’s unique charm is the hospitality of the Omani people. It is common for visitors to be invited for Omani coffee and dates by locals when travelling through the country, an offer that should never be refused. Visitors and adventurers looking for a unique holiday experience will find that Oman has a lot to offer. Hiking, scuba diving, fishing, kitesurfing and caving to name just a few. From tall mountains and deep gorges, to waterfilled wadis, endless beaches and some of the world’s most stunning desert landscapes, the diverse beauty of Oman is apparent in every part of the country. Even when summer temperatures soar in the rest of the region, the Sultanate enjoys cooler temperatures in Dhofar and the mountain tops of the Al Hajar range, making it a one-of-a-kind holiday destination for visitors from around the world.

CLIMATE:
The ideal time to visit Oman is from September to March, when the climate is a refreshing 25 to 30 degrees Celsius. During the Summer months (April to September), the climate remains moderate in the Al Hajar Mountain range and Dhofar region, a rarity on the Arabian Peninsula where Summer temperatures frequently exceed 40 degrees Celsius. Dhofar is especially worth a visit during Khareef, the monsoon season from June to September, when daily rains and a magical mist transform the landscape into a lush green.

CURRENCY:
Oman’s national currency is the Omani Rial (OMR), with the lower denominations known as ‘Baisa’. Rial notes range from OMR 1 to OMR 50, while Baisas are available in note form in denominations of 100 and 500 with 1,000 Baisa equating to One Rial. Coins are also available in 25 , 10 , 5 and 50 Baisa denominations but may not be accepted at all stores and outlets. The Omani Rial is the third highest-value currency in the world and the Central Bank of Oman https://cbo.gov.om/ provides updated information on foreign exchange rates and the history of the currency. Most banks in Oman provide Visa or Mastercard facilities through their branches and ATMs.

SAFETY:
Oman is ranked as one of the safest and most relaxing countries in the world and is home to some of the most welcoming people in the world. However, when visiting anywhere it is always recommended to take the necessary safety precautions and to store passports, money and other valuables in a closed bag or hotel safe. Oman also has excellent road infrastructure – nevertheless, caution is advised when travelling on the Sultanate’s roads. Speed limits are in place at all times and clearly indicated through road signage. Several foreign embassies and consulates are located in Muscat, handling both major and minor diplomatic affairs. Working weeks are usually Sunday to Thursday.

ETIQUETTE:
Omani people are known for their generous hospitality and warm nature, and the country’s nationals live in perfect harmony with other cultures and nationalities from all around the world. However, as in any country, visitors are kindly requested to adhere to a number of rules to ensure this mutual respect remains:
- Please observe social customs and dress in an appropriate manner at all times
- Artifacts, flora and fauna and heritage sites can be admired, but never touched or removed – this includes fruit and vegetables from private properties
- Noise or loud music should be avoided when passing residential areas
- People or private property should not be photographed without obtaining permission first
- Garbage should be disposed of in designated bins at all times
- Activities such as hiking or off-roading are at every visitor’s own risk, so please make sure to carry enough water, food, fuel and spare parts at all times
- Do not camp in wadi beds; flash floods can occur occasionally
- To ensure safety, do check that any tour guide or specialized tour operator used holds a valid license from the Ministry of Tourism.
